MEET THE BUBBLE BUDDIES

ORESTIS

A fun-loving, friendly Clownfish, Orestis is always ready for an adventure or to help a buddy in need.

Clownfish live in anemones which protect them from predators, and the clownfish's bright colours lure fish in for the anemone to eat.

Flying fish can't really fly, but they can propel themselves out of the water to nearly 6m high!

ATHENA

The singing star of Bubble Buddies Bay, Athena is a talented Flying Fish who will wow you with a tune and her endless sparkle.

DIMITRA

Dimitra the Octopus is caring, kind and a great cook! She loves to look after the other Bubble Buddies. Plus, if you need something done - just ask Dimitra!

Octopuses have EIGHT arms!

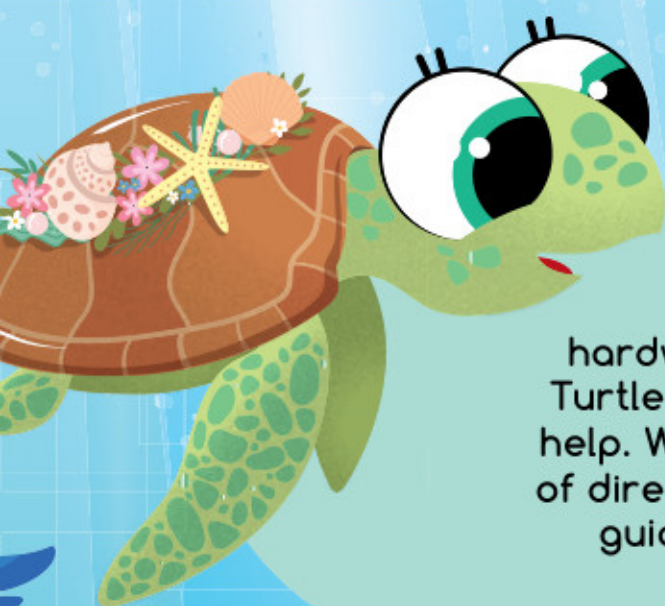

Red-mouthed Gobies grow up to 18cm long

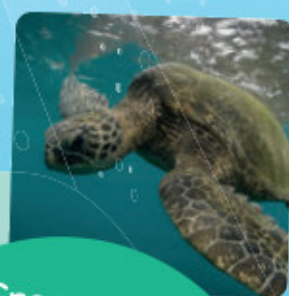

APOLLO

Adventure, food and more food are Apollo's favourite things. Always ready for some fun, Apollo is a Red-mouthed Goby who will play all day long! Until dinner time that is.

TERESA

A gentle and hardworking Green Sea Turtle, Teresa is happy to help. With her great sense of direction, she can easily guide you home too!

Green sea turtles are classified as an endangered species and we need to do all we can to protect them!

CARCI

Carci the Crab has lots of special skills including being able to cut with her sharp claws, and scuttle up onto land.

Mediterranean green crabs are omnivores - they eat both algae and small animals like mussels.

SOPHIA

Clever and quick, Sophia is a Seahorse who has all the answers and will help you work out any problem.

Seahorses don't look like fish but they are! They don't have scales though; they have an exo-skeleton made up of hard, bony plates.

ATLAS

The oldest, wisest fish in Bubble Buddies Bay, visit Atlas the Anglerfish in his mysterious cave if you're looking for advice.

The deep sea is always very dark, as light from the sun doesn't reach down there. Some species of anglerfish produce their own source of light.

THEO

As a Sea Urchin, Theo is smaller than his friends, but he has a big personality. He's always ready for adventure and is just as brave as the larger Bubble Buddies.

The Purple sea urchin is spiny but not dangerous. It can be held with care!

ELECTRA & ELENI

Electra and Eleni are Electric Eels who you'll find helping out wherever electricity is needed.

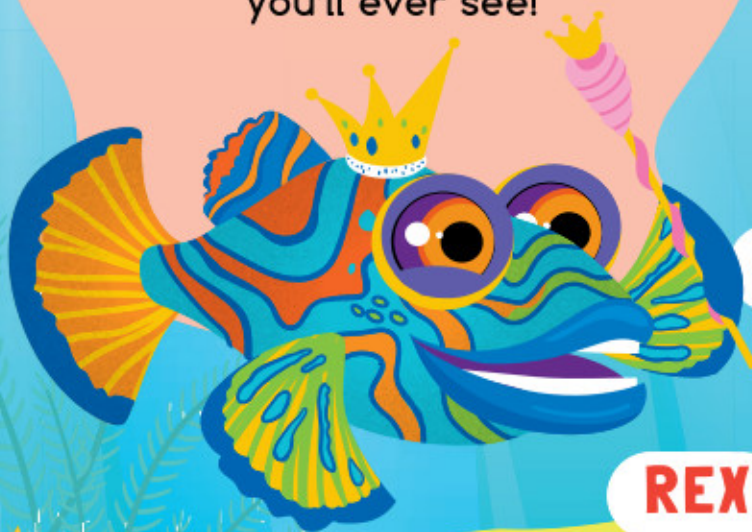

Emergency?!
Don't panic, Soter the Stingray is on her way! Brave, speedy and always ready for action, Soter will help out anyone who calls.

SOTER

The King of Bubble Buddies Bay is the most beautiful, colourful and dazzling Mandarinfish you'll ever see!

Stingrays are pretty speedy. Some can travel up to 30 miles per hour

KING ADONIS

REX

The leader of the Awesome Oysters is Rex - a cheerful little fellow who will be there whenever you need a water clean-up.

Creative Colouring

Dimitra is blowing bubbles for the youngest Buddies.

Can you colour in her rocky home?
You could use purple, or surprise her with a change of decoration!

STORY
TIME!

Plastic Peril

Apollo the Goby is having a nap in the sand. He wakes up to find he is trapped in a plastic bag caught up in the coral,

"Help!
I can't get
out?"

Sophia the Seahorse is the first to arrive followed by Dimitra the Octopus and Orestis the Clownfish,

Fun Fact
Gobies
sleep in
the sand

"Stop struggling,
Apollo, you'll make
it worse! Don't
worry, we will help
get you out."

"I'm not worried, Sophia, I'm hungry!"

Sophia with her tail and Orestis with his fins pull and tug at the plastic bag, but it's too slippery...

Fun Fact
Octopuses have
8
arms

... even Dimitra, the Octopus, with her eight arms can not untangle the plastic bag from the coral.

"This will not do. I have an idea!"
